NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions. Support that is restricted by the donor is reported as an increase in unrestricted net assets if the restriction expires in the reporting period in which the support is recongnized. All other donor-restricted support is reported as an increase in temporarily or permanently restricted net assets based on the nature of the restriction. When the restriction expires or its conditions have been satisfied, restricted assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Promises to Give

Contributions are recognized when the donor makes a promise to give to the organization that is, in substance, unconditional. Unconditional promises to give due in the next year are recorded at their net realizable value. Unconditional promises to give in subsequent years are reported at the present value of their net realizable value.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

The organization uses the allowance method to determine uncollectible unconditional promises receivable. The allowance is based on prior years' experience and management's analysis of specific promises made.

Cash and Equivalents

For purposes of the statement of cash flows, the Company considers all short-term debt securities purchased with a maturity of three months or less to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets

and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Contributed Services

Numerous volunteers have donated significant amounts of their time in the organization's program services and its fund raising campaigns. The value of this contributed time is not reflected in the financial statements since it does not require a specialized skill. However, certain other contributed services that require specialized skills, provided by individuals possessing those skills, which would otherwise need to be purchased, if not provided by donation, are recognized as revenue and expense. Such amounts are included in the accompanying statements of activities and changes in net assets.

Donated Goods

Donated materials are recorded as contributions at their estimated fair value at the date of donation. Such donations are reported as unrestricted support unless the donor has restricted the donated asset to specific purpose.

Investments

Short-term investments are carried at lower of cost or market and have a maturity greater than three months.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Property and Equipment

Property and equipment are carried at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the respective assets. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in income for the period. The cost of maintenance and repairs is charged to expense as incurred; significant renewals and betterments are capitalized. Any donated property and equipment is carried at its fair market value.

Revenue Recognition

Revenues are recognized when homes are completed and a signed mortgage is received by Habitat for Humanity of Evansville, Inc.

Transfer to Homeowners

Transfers to homeowners are recorded at the gross amount of payments to be received over the lives the mortgages. Non interest bearing mortgages have discounted at various interest rates ranging from 6% to 9%. Discounts are amortized using the straight-line method over the lives of the mortgages.

NOTE 3 - MORTGAGES RECEIVABLE

Mortgages receivable consist of non-interest bearing mortgages, which are secured by real estate and payable in monthly installments over the life of the mortgage. The mortgages have an original maturity of twenty (20) to thirty (25) years and arise in connection with Habitat's homebuilding initiatives.

Long-term mortgages receivable at June 30, 2011 are as follows:

	<u>Total</u>	Long-Term

Habitat has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash. Habitat currently has balances in excess of the insured amount of \$141,147 at June 30, 2011. Habitat's concentration of credit risk with respect to mortgage loans receivable depends on its partner families' ability to repay, which varies with economic conditions in this geographic area.

NOTE 11 - OTHER MORTGAGE RECEIVABLE INFORMATION

In 1994, Habitat for Humanity of Evansville, Inc. began issuing second mortgages on homes they sold to qualifying families. The second mortgage was designed to discourage mortgagees from selling properties in the first 10 years, due to the market value exceeding the value of the first mortgage.

The organization believes that early termination gains are remotely possible and would represent immaterial gain, so therefore no gain or loss has been included in the financial statements nor its potential impact on them estimated.

NOTE 12 - LETTER OF CREDIT

The organization carries a letter of credit at Integra Bank for \$251,071 and \$682,518 at Old National Bank in order to cover infastructure costs that are in process. The city requires such costs to be secured until final inspections can be made. None of the letter has been used at June 30, 2011.

NOTE 13 - INVESTMENT IN JOINT VENTURE

Habitat invested, along with three other affiliates, in a joint venture HFHI-SA Leverage VIII, LLC with twenty five point seven percent (25.7%) ownership to take advantage of New Market Tax Credit(NMTC) financing. NMTC financing allows an entity to receive a loan or investment capital from outside investors, who will receive new markets tax credits to be applied against their federal tax liability. As a result, Habitat has invested \$ 2,386,637 and was able to secure a 15-year loan in the amount of \$ 3,143,108. payable to a community development entity (an affiliate of the joint venture). The loan proceeds are to be used solely for the purpose of constructing and selling qualified housing properties to low income residents. The loan accrues interest only for years 1 through 7 at a reduced rate of .756432%. Beginning in year 8 through 15 the principal balance of the loan is reduced by an eight year amortization at the same rate of .756432%.

NOTE 14 - INVESTMENT IN HFHI-SA LEVERAGE VIII, LLC

In 2011 Habitat participated in a New Markets Tax Credit (NMTC) program. The program provides funds to eligible organizations for investment in "qualified low-income community investment". Program compliance requirements included creation of a promissory note and investment in a qualified community development entity (CDE). Tax credit recapture is required if compliance requirements are not met over a seven-year period.

In 2011 Habitat recorded its 25.7% investment in HFHI-SA Leverage VIII, LLC at the cost of \$2,386,637. Revenue recorded at \$870,000 equals the amount Habitat expended for eligible low income home construction costs.

On Febuary 24, 2011, HFHI-SA Investment Fund V, LLC (the Fund), and the upstream effective owner of HFHI-SA NMTC V, LLC (holder of the promissory note due from Habitat) is expected to exercise its put option. Under the terms of the put option agreement HFHI-SA Leverage VIII, LLC is expected to purchase the ownership interest of the fund. Exercise of the option will effectively allow Habitat to extinguish its outstanding debt owed to the Fund.

NOTE 15 - LONG TERM DEBT

Long-term debt consists of the following:

HFHI-SA NMTC V, LLC

\$ 3,143,108

Debt requires interest only payments until June 5, 2018 at .756432%. The loan matures on February 24, 2026. The loan is secured by substantially all the assets aquired by Habitat from the project loan proceeds. Debt has a put option feature that is exercisable March 6, 2018.

NOTE 16 - LINE OF CREDIT

Habitat has a line of credit for \$100,000 from First Federal Savings bank. None of the line of credit was used at June 30, 2011

NOTE 17 - INCOME TAX

The organization adopted the provisions of FASB Accounting Standards Codification Topic 740, as it relates to Accounting for Uncertainty in Income Taxes. The standards prescribe attributes for the financial statement recognition and measurement of a tax position taken, or expected to be taken in a tax return. It requires affirmative evaluation that is more-likely-than-not, based on the technical merits of a tax position, that an enterprise is entitled to economic benefits resulting from positions taken in income tax returns. If a tax position does not meet the more-likely-than-not recognition threshold, the benefit of that position is not recognized in the financial statements, and additional disclosures about

See Independent Auditor's Report

uncertain tax positions are required. Habitat's adoption of these accounting standards had no impact on the financial statements.

Habitat's evaluation as of June 30, 2011 revealed no tax positions that, if overturned, would have a material impact on the financial statements. The 2008 through 2010 tax years remain subject to examination by the Internal Revenue Service. Habitat does not believe that any reasonable possible changes will occur within the next twelve months that will have a material impact on the financial statements.

NOTE 18 - FAIR VALUE MEASUREMENTS

Habitat applies accounting principles generally accepted in the United States of America (GAAP) for fair value measurements of financial assets that are recognized or disclosed at fair value in the financial statements on a recurring basis. Fair value is defined as the price that would be received for an asset or paid to transfer a liability, in the principal or most advantageous market for an asset or liability, in an orderly transaction between market participants at the measurement date. A three-level fair value hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair values are as follows:

Level 1 - Observable inputs such as quoted prices in active markets;

Level 2 - Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3 - Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The level in fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The fair values of investments categorized as level one are money market funds. The fair values are determined by quoted prices in active exchange markets.

The discount on non-interest bearing mortgage loans is categorized as level two. The discount rate used for all mortgages closed during a fiscal year, published annually by Habitat for Humanity International on June 30, is based on an average of the low-income housing credit annual discount rate, Revenue Ruling 2009-16 section 42(b)(1), for buildings placed in service during the period.

NOTE 19 - SUBSEQUENT EVENTS

Management evaluated the activity of Habitat through September 26, 2011 the date the financial statements were available to be issued.
